

Feeding Frenzy

Come unravel the intricacies of the food web as we discover how every animal in an ecosystem relays on one another. From soaring birds of prey to blooming flowers, all living organisms play a vital role in the environment. Do you know what your role is?

This class is aligned with Texas State as well as National Science Standards.

Texas State Standards alignment

During this class we will:

- Describe the flow of energy derived from the sun and transferred through the food chain to producers and consumers
 - 1st grade-9C
 - 2nd grade-9C
 - 3rd grade-9B
 - 4th grade-9A,9B
 - 5th grade-9B
- Investigate external and learned characteristics of an animal to relate to what it eats and where it lives
 - 1st Grade-10A
 - 2nd Grade-10A
 - 3rd grade-10B
 - 4th Grade-10A
- Examine the effects of changes within an ecosystem caused by living organisms such as overpopulation of grazers or endangered animals.
 - 5th grade-9C

National Standards alignment

Life Science

- Organisms and environments
- Characteristics of organisms
- Populations and ecosystems
- Diversity and adaptations of organisms
