

Texas Animals

Texas is a big place that has many different habitats. From the Pineywoods to the Panhandle, the Red River to the Rio Grande, join us as we take a tour of the state and discover the amazing diversity of animals that call Texas home.

This class is aligned with Texas State as well as National Science Standards.

Texas State Standards alignment

During this class we will:

- Examine what living organisms need to survive such as food, water, shelter and space
 - Kindergarten-9A
 - 2nd grade-9A
- Determine how the physical characteristics and behaviors of animals are related to where the animal lives
 - 1st grade-10A
 - 2nd grade - 10A
 - 3rd grade-10A
 - 4th grade - 10A
 - 5th grade - 10A

National Standards alignment

Unifying Concepts and Processes

- Systems, order, and organization
- Form and function

Life Science

- Characteristics of organisms
- Organisms and environments
- Structure and function in living systems
- Regulation and behavior
- Populations and ecosystems
- Diversity of adaptations of organisms

History and Nature of Science

- Science as a human endeavor
